Location, location, location

The location that you choose will set the tone for the wardrobe choices and overall feel that you want your images to have.

**Country**

A fence, barn, or field describes a country setting best. Great for families that want to have space to play at their session.

**City/Urban**

A City/Urban session will take place downtown... This session is revolved around the colors & texture of the city. Imagine large buildings, gritty brick backgrounds & lots of color. This session is hip & fun, so enjoy! These sessions take place in late afternoon or early evening.

**Park**
